Mike, attached is what I sent Tom Cozzi last week, just got a call from DEP requesting that they (Jay Nickerson) be able to discuss with Stan before they proceed. I told them that I was ok with that approach. Jay will forward the comments to Stan. Please forward to Rob and Bill Potter.  
Thanks.

Tom, as we discussed week before last, I am highlighting to you issues in the permit equivalency process that could delay the conduct of the removal action which is scheduled to begin in early July 2013. After you reviewed the issues please call me so we can discuss them and determine an appropriate path forward.  
Thanks.
